Voluntary Product Accessibility Template

<i>Criteria</i>	Supporting Features	Remarks and explanations
Section 1194.22		
Section 1194.41		

Section 1194.22 Web-based Internet information and applications – Detail

Voluntary Product Accessibility

<i>Criteria</i>	Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supports	Text equivalents are provided for all non-text elements via alt tags.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not applicable	
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supports	FDO does not use color alone to distinguish the importance of a visual element.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supports	A user or screen reader can read and understand pages in FDO with the associated style sheets disabled.

(e) Redundant text links shall be provided for each active region of a server-side image map.	Not applicable	
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not applicable	
(g) Row and column headers shall be identified for data tables.	Supports	Search result tables and information tables associated with grant maps and charts are marked with informative column headers
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Not applicable	
(i) Frames shall be titled with text that facilitates frame identification and navigation	Not applicable	FDO does not use Frames.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supports	FDO does not cause the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Not applicable	FDO is compliant with all provisions of this section, so a text-only version is unnecessary.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supports, pending results of accessibility testing	FDO uses Javascript to provide feedback from interactive elements and to allow Assistive Technology such as screen readers

		to read and transmit information back to the user.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).	Not applicable	
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supports	FDO works with screen readers such as JAWS
(o) A method shall be provided that permits users to skip repetitive navigation links.	Supports	Each FDO page starts with code allowing screen readers to skip past repetitive navigation links
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not applicable	

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.

Section 1194.41 Information, Documentation and Support - Detail

Voluntary Product Accessibility Template

<i>Criteria</i>	Supporting Features	Remarks and explanations
(a) Product support documentation provided to	Supports	Product support in an accessible, text-based HTML format is available

<p>end-users shall be made available in alternate formats upon request, at no additional charge</p>		<p>at http://foundationcenter.custhelp.com/. Large print or ASCII text formats will be provided at no additional charge.</p>
<p>(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.</p>	<p>Supports</p>	<p>Our customer engagement team is available via phone, email, chat, or customers can find support in person at any of our 480 Funding Information Network Partners or five regional offices.</p>
<p>(c) Support services for products shall accommodate the communication needs of end-users with disabilities.</p>	<p>Supports</p>	<p>Our customer engagement team is available via phone, email, chat, or customers can find support in person at any of our 480 Funding Information Network Partners or five regional offices.</p>
